

LOCAL PUBLIC-PRIVATE PARTNERSHIPS (LP3)

LP3 helps communities pilot data- and technology-driven solutions to local challenges. By connecting civic, industry, and academic partners, LP3 builds trust, capacity, and innovation that drive lasting economic growth.

Small Business One-Stop Shop (SBOSS)

Local Montgomery, Alabama leaders envision a bold new reality: **build the Southeast's next small business hub.** Through our partnership with SBOSS, entrepreneurs are gaining access to capital, training, and the networks that help them grow. Montgomery serves as a blueprint other communities can follow.

Panama National AI Strategy

This summer, PIN interns worked with Tech AI and other public, private & academic partners to map AI opportunities, supporting Panama's goals in science, health, and tech while shaping a model for responsible, citizen-focused innovation.

AI & Digital Twin for Coastal Flood Resilience

With PIN's support, a Georgia Tech team is using AI-powered mapping to help Charleston's first responders predict flooding and keep coastal communities safe.

“ I'm grateful for the mentorship, trust, and encouragement from the teams at PIN who created a space where I could learn, experiment, and contribute meaningfully. — Shambhavi Giri, 2025 PIN Alumna ”

ABOUT PIN

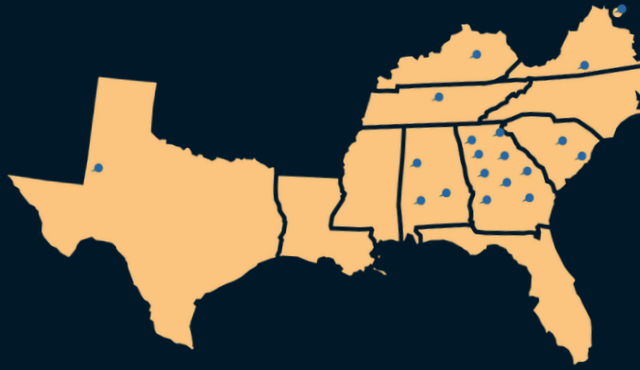

PIN is an award-winning public-private partnership committed to making the southeast a model for how innovation and technology fuels regional growth.

Our mission is to catalyze innovation, opportunity and shared economic prosperity through public-private partnerships.

PIN's investments are a force multiplier. PIN delivers a 5.23x return on every dollar and builds lasting value through stronger networks and talent.

“The programs that PIN curates always help move the needle. It's a trusted source for ecosystem development. Our goal is to be able to connect with other ecosystem leaders within the program to see what they're building and to see what we're missing, or how we can potentially collaborate.”
— Christele Parham, MBT Collective

Strengthening collaboration and expanding project reach across all 12 GA economic development districts, as well as growth throughout the Southeast

The PINtern program was one of the greatest investments we made this year. Our interns delivered several significant, valuable projects and helped us identify opportunities and strategies to engage with the next generation of professionals.

— Joseph Henning, Henry County Chamber of Commerce

STRATEGIC PILLARS

Emerging Innovators

Fuels talent development and workforce readiness through paid, experiential learning, mentorship, and investment in high-demand industries.

Local Public-Private Partnership (LP3)

Empowers communities to drive innovation through data-informed partnerships that build local capacity, trust, and economic growth.

EMERGING INNOVATORS

Emerging Innovators acts as a marketplace for talent to build mutual value, give students hands-on experience and mentorship and help partners expand their capacity and impact.

South Carolina Quantum FinTech

PIN's fellowship united quantum computing and fintech.

- Fellows launched startup **Shaw Circle** where they applied quantum tools to investment strategy.
- Fellows gained real-world funding & mentorship.

Smart Agriculture for Tribal Food Security

PIN's partnership with the Lower Muskogee Creek Tribe restored local food systems through sustainable innovation.

- Revived 1 of 4 greenhouses (Aquaponic system 25% operational).
- Repaired systems & built guide for upkeep.
- Produces fish and produce for local food security and tribal resilience.
